

PROFESSIONAL ACCESS CONTROLS

AUTOMATIC GATE LOCK

Designed for added security in conjunction with GTO/PRO® Automatic Gate Operators. The gate lock unlocks and locks automatically when the gate opens and closes. The perfect solution for high wind conditions, and added security.

#1 Accessory For Swing Gate Operators

STANDARD FEATURES

- Black powder coated steel housing proven to withstand 3,500 lbs. (1,587.6 kg) of force.
- Recommended for gates over 8 feet long and for installations where high winds are common.
- Stabilizes and secures the gate in the closed or open position.
- Simple installation, wires directly to all GTO/PRO® swing gate operators*.
- Battery back up provided by existing GTO/PRO® gate operator batteries.
- Fail secure system with keyed manual over ride release.
- Bolt on or weldable hardware included.

NOTE: If used on other gate operator brands, lock requires 12 volt DC power source and a 12 Volt DC powered relay – for questions consult factory.

FM144 AUTOMATIC GATE LOCK

- Secure gates in the closed position.

FM142 AUTOMATIC GATE LOCK

- Secure gates in the open position.
