

**GTO NOW OFFERS A MODULAR EASY-TO-SHIP GOOSENECK PEDESTAL
FOR MOUNTING ACCESS CONTROL DEVICES**

- - - - -

**Designed To Mount Digital Keypads, Wireless Intercom Systems,
Card Readers, Telephonic Entry Systems And Other Access Control Devices**

Tallahassee, Fla. – April, 2007 – GTO, Inc., an innovator in swing gate operators and accessories has introduced the Mighty Mule Mounting Post for the mounting of access control devices.

Easy to ship due to its modular design, the Mighty Mule Mounting Post comes as a 64.4 inch direct burial unit (F100) or a 45.7 inch surface mount unit (F110).

Made from rust proof extruded aluminum with a black anodized finish, the Mighty Mule Mounting Post is designed to mount a number of access control devices including digital keypads, wireless intercom systems, card readers and telephonic entry systems.

“Because the Mighty Mule Mounting Post is a modular design, it’s easy to ship and install,” said Kevin Peaden, vice president of GTO sales. “Its universal face plate allows for the custom installation of all manufacturers’ products.”

Mighty Mule is GTO’s retail line of products that includes the Mighty Mule 350 automatic gate operators designed for pull or push-to-open swing gates weighing up to 550 pounds and 16 feet in length and the Mighty Mule 500 single swing gate model and 502 dual swing gate model, that can handle gates weighing up to 850 pounds and 16 feet in length, per leaf.

Mighty Mule gate operators and accessories can be found in stock or through special order in national hardware and agricultural supply stores like Home Depot, Lowe’s, Tractor Supply, and ACE Hardware across the United States and around the world. For a dealer near you or more information about Mighty Mule, go to www.mightymule.com or call GTO, Inc at (800) 543-GATE.
